PROFESSIONAL SUMMARY

Passionate about technology and innovation, I am currently self-learning Machine Learning and Artificial Intelligence concepts and tools to bridge the gap in formal academic exposure to these fields. I am eager to gain practical experience through an internship, where I can apply my knowledge, collaborate with skilled professionals, and refine my skills in software development and machine learning. My proactive approach to learning and commitment to hard work position me as a motivated and adaptable candidate, ready to contribute meaningfully to the team and organization.

WORK EXPERIENCE

Internship | Oct 2023 – Apr 2024
Bank of Ceylon

- Successfully completed a 6-month training program at the Bank of Ceylon, Taprobane Branch, where I gained hands-on experience in,
  - Customer Service Inquiries
  - Tax Collection
  - Loan Application Processing

EDUCATION

BSc(Hons) in Computer Science | 2023 – 2025
Staffordshire University - UK

- Studied key subjects including Commercial Computing, Mobile Application Development, Database and Data Structures and, Server-Side Programming.

GCE Advanced Level in Physical Science | 2022
Asoka College , Colombo 10

- 3 C's for Combined Mathematics , Chemistry , English
- S for Physics

GCE Ordinary Level | 2019
Asoka College , Colombo 10

- A's for Mathematics , English , History , ICT , Sinhala, Business Studies , Buddhism
- B for Science
- C for Music

TECHNICAL SKILLS

- HTML / CSS / JAVA-SCRIPT / JAVA / C# / CISCO Packet Tracer / Laravel - PHP / Flutter - Dart / Visual Studio / Visual Studio Code / Microsoft Office Applications

SOFT SKILLS

- Adaptability / Problem Solving / Team Work / Time Management / Leadership

LANGUAGES

- English / Sinhala

PROJECTS

Stock Management System | Using C#

Developed a Stock Management System using C# that enables users to add, update, and delete items, while also generating real-time stock levels. This project strengthened my programming skills, database administration, object-oriented programming (OOP) concepts, and problem-solving abilities.

Carcare Mobile App | Flutter–Dart and Laravel–PHP

Leading a team of fellow students to develop 'CarCare,' a mobile application using Flutter (Dart) and Laravel (PHP). This app, designed for a specific service center, enables users to access a digital service record book, receive service reminders, and utilize additional features for more efficient vehicle maintenance. This experience has also enhanced my leadership abilities and team management skills.

Pet Pal Mobile App | Flutter–Dart and Laravel–PHP

I developed 'Pet Pal,' a mobile application using Flutter (Dart) and Laravel (PHP), designed to connect pet owners with pet care service providers and improve service accessibility for customers

Ceylon Turtle Web Site | HTML/CSS/Java Script

Developed the 'Ceylon Turtle' website using HTML, CSS, and JavaScript to introduce the Ceylon turtle community and provide a booking system for Hikkaduwa Turtle Hatchery tours. This first project enhanced my skills in web design, development, and hosting on GitHub.
